ENCLOSURES: None

OSI REQUIREMENT HTA/SI/R-24/56: To search for stockpiles of completed weapons stored in the vicinity of the Feodosiya Torpedo Plant "Dalyni Kamyshi", reportedly one of the biggest producers of torpedoes in the USSR. Also to report any indications of plant expansion, with general dimensions.

REMARKS:

No stockpile of torpedoes was found. Photographic evidence does not confirm the production of torpedoes at this installation. The plant appears to be engaged in the production of small naval patrol craft. Since World War II, a boat basin, (340'x 400'), has been constructed adjacent to the main plant building (430'x 300'). In the vicinity of the plant are 18 small craft, 60' long, in various stages of construction. Six similar craft and 3 probable PT boats, 85' long, are afloat in the boat basin.
